---

**Visiting Professor Profile**

The Visiting Professor should be familiar with pension economics, investment strategy, behavioral finance and empirical household finance. Working with large household datasets and should have experience in conducting analyses on micro-level data from such datasets supported with publications in renowned journals. His/her background should support analysis in Stata and he/she should have demonstrated sufficient proficiency in handling complicated research problems with Stata and large datasets. His/her background should be in Economics and experience in the field should be supported by sufficient teaching experience and PhD in the field. Ideally, the candidate would have worked in the field of household finance as the course analyses are expected to cover issues in the field.
