My experience at UniTO

Mico Apostolov
Associate Professor of Business Administration at "Goce Delčev" University UGD, Stip - Macedonia

I was Visiting Professor (A.A 2016/17) at the Scuola di Management ed Economia of the Università degli Studi di Torino. During my stay, I was part of the Department of Management, where in close cooperation with Prof. Simone Domenico Scagnelli, I conducted lectures and seminars on first and third cycle of degree programs: ‘Financial Statements’ (Business Administration - first year) and ‘Logistics and International Trade’ (Management and Entrepreneurship - third year), as well as, a seminar for the PhD in Business and Management.

The Visiting Professorship program of University of Turin (TeachMob) is advanced transfer of knowledge, which encompasses getting acquainted with the culture and lifestyle of people, as well as, presenting the potential for future cooperation in the respected field of teaching and research. It is a milestone, indeed, a great life experience.
