My experience at UniTO

Francesco Cavatorta  
Associate Professor in Political Science at Laval University - Canada

Teaching MA students at the University of Turin was one of the best experiences of my professional life.

I found students to be engaged, engaging, willing to learn, open to new perspectives and keen to be challenged. The way in which the seminar was thought was a novelty for many of them and I believe they enjoyed the intellectual exchanges we had as much as I did. I hope I was able to transfer both knowledge and critical thinking skills to them.

I know I learned a lot from my students at the University of Turin. Their thirst for learning and debate challenged me constantly to be a better professor. I could not have asked for a more rewarding time.
